**AMENDED TARIFF AE. WATER MAIN EXTENSIONS**  
(Amending original Tariff AE. Water Main Extension,  
dated 09/12/2001; original Sheets No. 44 and 45):

1. Nothing contained herein shall be construed to prohibit the utility from contracting to make extensions under different arrangements if such arrangements have received the prior approval of the Public Service Commission.

2. Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more.

3. Other extensions.

a) When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility may require the total cost of the materials only of the excessive footage over fifty (50) feet per applicant/customer to be deposited with the utility by the applicant or the applicants, based on the average estimated cost per foot of the total material cost of the extension.

b) When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility will require the applicant(s) to sign an agreement between the utility and the property owner (applicant/customer) that specifically define the responsibilities of each party with regards to the extension.

c) Each customer who paid for service under such extension will be reimbursed under the following plan:

For a period of five (5) years after construction of the extension, each additional customer whose service line is directly connected to the extension installed, and not to extensions or laterals therefrom will be required to contribute to the cost

of materials for the extension, based on a re-computation of the amount contributed by the customer for the cost of material only. The Allen County Water District will bear the entire costs of labor and equipment. The utility will refund to those customers that have previously contributed to the costs of materials for the extension that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to the extension. All customers directly connected to the extension for a five (5) year period after it is placed in service must contribute equally to the cost of materials required for construction of the extension. In addition, each customer must pay the approved tap-on fee applicable at the time of his/her application for the meter connection. The tap-on fee will not be considered part of the refundable cost of the extension and may be changed during the refund period. Each customer must pay the approved tap fee. After the five (5) year refund period expires, any additional customer will be connected to the extension for the amount of the approved tap-on fee only.

4. As has been its policy in the past, the Allen County Water District will continue to bear the total cost of labor and equipment in installing the extension.

5. This amends Allen County Water District's Tariff AE Water Main Extensions, dated September 12, 2001, Tariff Sheets No. 44 and 45.
